YIELDING, WAKEFORD & MCGEE, ARCHITECTS, P.C.
P.O. Box 405, 116 W. Roosevelt Avenue, Albany, GA 31701
tel.229.435.0036 fax.229.435.0042

Yielding, Wakeford, & McGee was formed in July of 1975 through the partnership of J.M. Yielding and Mack Wakeford. The firm, originally located at 309 Pine Avenue in Albany, grew from two architects and a part-time secretary to a seven person firm by 1980, when it was relocated to larger quarters at 308 Third Avenue. In 1990, the firm moved to its current location at 116 Roosevelt Avenue, in Heritage Plaza, and renovated a two-story, early twentieth century building which was the original home of the Famous Candy Co., later to become Bob's Candies.

Since then, the firm has continued to grow, becoming a professional corporation in 1995, with Derrell McGee becoming a partner and stockholder. Kent McClure became a stockholder in 1999. In 2001, J.M. Yielding released his stock holdings; the current stockholders are Mack Wakeford, Derrell McGee, and Kent McClure.

The firm has always maintained a regional design focus, concentrating on local projects with a wide variation of project types. Our goal is to have an enduring and positive impact on the built environment in southwest Georgia.

Radium Springs Middle School
Albany, GA

***Administration Building
Merck & Co., Albany, GA***

Yielding, Wakeford, & McGee has a core of four architects with an average of over 30 years each of experience in project design and management. Our clients have ranged from single practitioners of medical and legal practices to major corporations and government entities. Governmental clients have included city and county governments in our region, agencies of the State of Georgia, and agencies of the Federal Government. Our Project types include education - from pre-k through higher education, medical facilities, housing, child care, office buildings, transportation, banks, sports facilities, churches, public safety facilities, and retail, to name a few.
